Leadership Philosophy: As a servant-leader, I am committed to the vision of fostering an environment where everyone feels valued and cared for, have the ability to use their voice, and can grow as servant-leaders. In doing so, I seek to create connections that are life-giving, supportive, and nurturing; challenging those that I am serving to love more deeply and to live as their authentic selves. I believe in helping others see the potential in them, rooted in a wholeness of self and leading from a presence that allows for a co-creation of endless possibility.
